KANOMAX
The Ultimate Measurements

CLEANROOM MONITORING SYSTEM
DESIGNED IN PARTNERSHIP WITH ELEMENTAL MACHINES

ELEMENTAL MACHINES

Comprehensive environmental monitoring

The Kanomax Cleanroom Monitoring System offers turnkey solutions for monitoring needs required by various industries such as pharmaceutical, medical device, aerospace, semiconductor, and automotive at a competitive price.

APPLICATIONS

- Cleanroom monitoring for Pharmaceutical manufacturing (FDA cGMP and EU GMP)
- Cleanroom monitoring project, which requires formal validation
- Small scale cleanroom startup project (we can offer as small as 1 sensor system)

FEATURES

- Real-time monitoring of temperature, humidity, airborne particles, differential pressure, energy consumption, and gases
- Local or cloud-based data server for monitoring data
- Initiate alarms per event
- Dependable remote access
- Security and compliant results
- System validation
- Meet all the necessary regulatory requirements: 21 CFR Part 11, ISO 14644, USP797/800
- Save money and resources for monitoring system project

BENEFITS

- Turnkey monitoring system solutions provided by Kanomax:
  - ► Proposal development
  - ► Monitoring system design
  - ► System installation
  - ► System validation
  - ► Training for operation
  - ► After sales technical support & troubleshooting
  - ► Calibration of sensors
- Kanomax helps customers to specify cleanroom monitoring requirements
- A monitoring system can be designed, installed and begin operating within 3 months
